It works by gently softening hard, dry stools - making it easier to go.

Immunohistochemical analysis demonstrated the localization of peripheral dopamine D1 and D2 receptors to the smooth muscle layer of human and rat seminal vesicles.

I chose to infuse my calendula petals in olive oil and hope to make a calendula salve with it when it is finished.

The idea is to help patients figure out, over time, which strains they like, in what form, and how much they should take if they want to continue using marijuana.

Cats, however, are extremely strong-willed animals and it could be that a cat categorically refuses to eat something else.
